Professional Experience

Systems Engineer | Full Stack Software Developer
IFX Networks | March 2023 – Present

Full Stack Development: Design and develop end-to-end solutions using the JavaScript ecosystem (**React, Angular, Node.js, and TypeScript**), integrating with both MongoDB and SQL databases.
Architecture & APIs: Proven experience in microservices architecture, RESTful APIs.
Automation & AI: Implement and automate workflows using **N8N**, integrate LLM models, and develop custom Python scripts for various backend processes.DevOps & Methodology: Manage version control and deployments using **Git, Azure DevOps, and Docker**. Proficient in building **CI/CD pipelines** while working under Scrum agile methodologies and maintaining rigorous documentation standards.
NetSuite Specialist: Expert in SuiteScript (1.0, 2.0, 2.1), including the development of **Suitelets, Restlets, Client Scripts, and Map/Reduce jobs.** Experienced in CRM configuration management via SDF (**SuiteCloud Development Framework**).

Software Developer
Alcaldía de Cartagena | January 2023 – March 2024

Web Development: Developed and maintained web applications using **HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL,** deployed within Linux environments.
CMS Management: Experienced in the implementation and customization of Content Management Systems (CMS) such as **Drupal, Joomla, and WordPress.**
Agile Collaboration: Participated in projects under the **Scrum** methodology, focusing on continuous delivery, high-quality code, and comprehensive technical documentation.

Web Master
Alcaldía de Cartagena | January 2022 – December 2022
CMS Administration: Managed and maintained institutional websites using J**oomla, WordPress,** and **Drupal**. Responsible for installation, configuration, content management, and custom theme/template development.
Platform Lifecycle: Led the full project lifecycle, including requirements gathering, design, development, implementation, updates, and technical support for web platforms.
Performance & Security: Ensured continuous uptime, security standards, and alignment with institutional goals for all web assets.

Technical Support Specialist
Alcaldía de Cartagena | January 2022 – December 2022

User Support & Troubleshooting: Provided end-user assistance and resolution for technical and operational incidents.
Systems Maintenance: Supported the use of office productivity suites, performed basic hardware/software maintenance, and ensured optimal equipment performance.
Incident Management: Managed service requests and technical issues using ticketing systems and incident control platforms.

Education

B.S. in Systems Engineering | Jan 2019 – Dec 2023
Fundación Universitario colombo internacional

Associate Degree in Software Development | Jan 2018 – Oct 2022
2022 *Fundación Universitario colombo internacional*

Vocational Certificate in Network Installation | Jan 2019 – Dec
2019 2019 *Servicio Nacional de Aprendizaje (SENA)*

Certificate in Oracle Programming and Databases | Jan 2014 –
March 2014 *Servicio Nacional de Aprendizaje (SENA)*

English Proficiency Program (B2 Level) | Jan 2018 – Dec 2022
Centro Colombo Americano

Skills & Expertise

Programming Languages
JavaScript (ES6+), TypeScript, PHP, Python, SQL, HTML5, CSS3.

Frontend Development
React, Angular, Bootstrap, UI/UX Design, Web Accessibility & Usability, Flutter (Mobile).

Backend & ERP Development
Node.js, Express, RESTful APIs, Microservices. NetSuite Specialist: SuiteScript (1.0, 2.0, 2.1), SDF (SuiteCloud Development Framework).

Databases
MySQL, MongoDB, SQL Server, Postgress.

CMS & Web Development
WordPress, Drupal, Joomla, Strapi CMS.

DevOps & Infrastructure
Docker, Azure DevOps, Git, CI/CD Pipelines (Cluster deployment), Linux System Administration.

Automation & AI
Workflow Automation: n8n. AI Integration: LLM model integration (OpenAI, LangChain, etc.).Scripting: Custom Python scripts.

Methodologies & Management
Scrum Framework, Technical Documentation, Version Control (Git), Requirements Gathering.

Support & IT Administration

IT Support, Hardware Maintenance, Office Productivity Suites, Incident Management & Ticketing Systems.

Languages

English: Upper-Intermediate (B1).

Spanish: Native.B2
